What **WE** can do for **YOU**...

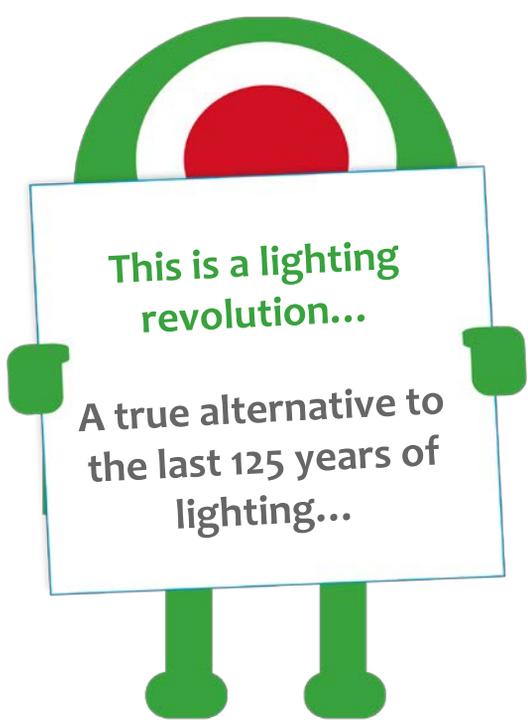

For starters we can save you more than **£25,000...**

Here at **London Electric Design** we are confident that our well thought-out product range and service commitments will prove to be a simple, efficient and viable addition to your business.

We offer you a complete **LED** retrofit bulb (lamp) replacement service, that will provide you and your business with long term significant savings without the need to install new lighting systems.

We know what's good and we know what's not, meaning we'll only ever install or recommend the most suitable products from this new and exciting lighting technology.

The time to switch to **LED** is now, so why wait..?

**This is a lighting
revolution...**

**A true alternative to
the last 125 years of
lighting...**

What we do...?

By offering a unique service, we're able to provide you with the most suitable **LED** lighting applications, complete with a full installation, safe ecological removal and recycling of the old bulbs and the support of our unique full 5 year warranty*.

Why we do it...?

We've made it clear and simple to see the differences in true operating costs and the savings available right now. With our fit & forget warranty, your lighting maintenance is no longer a worry, we will take on any concerns for the next 5 years*.

Lets show you how...

Please a look at our detailed quotation based on our survey results overleaf, and have no hesitation in asking us any questions you may have. We'll happily show you a demonstration of the amazing lighting output **LED** can now offer.

Yours Sincerely,

Lui Bachini
